

Matte Films

33 FILM EMULATIONS FOR PHOTOSHOP

A Great Big Thank You!

Thank you for your purchase! Here's how to get started:

Loading the Actions and Grain Patterns:

1. Open the Actions panel (Window > Actions).
2. Click on the panel menu located on the top-right of the Actions panel, then choose "Matte Films by SparkleStock".
3. Open the Presets Manager (Edit > Presets > Presets Manager). Select "Patterns" from the Preset Type dropdown menu.
4. Click on the panel menu located on the top-right of the pattern picker. Choose "Matte Films by SparkleStock" from the menu. Click Done.

Important: The action do not appear in the Actions panel automatically. They must be loaded from the Actions panel menu as described in step 2.

Don't see the actions in the menu?

1. Open the Creative Cloud desktop application, click the three vertical dots icon in the upper-right, and then select Preferences.
2. Click Creative Cloud and select Files. Ensure that File Sync is enabled.

Using the Photoshop actions:

1. In the Actions panel (Window > Actions), click on the "Play All Effects" action.
2. Go into your History panel (Window > History) and select an effect.
3. Adjust the fade by changing the layer opacity of the "Fade" layer. You can adjust the opacity of the other layers.
4. Doubleclick on the thumbnail of the Grain layer. By default, the 50% grain size is suitable for a 16 megapixels image. Adjust the size according to your image size (ex. 25% for a 8 megapixels or 100% for a 36 megapixels)

FAQ:

Q: I am getting error messages. How do I fix this?

A: Please go to Image > Mode and ensure that your image is in 8-bit RGB mode.

We're happy to help you!
