

## How To Use Overlays

1. Open Adobe Photoshop.
2. Install Overlay Actions.atn  
(Window > Actions > Load Actions)
3. Open photo.
4. Play 'Screen+Mask' Actions.
5. Place a suitable file with overlay effect, rotate, and scale the if necessary.
6. You can use black or white brush on the automatically created layer mask to remove texture from the foreground of the photo.
7. Enjoy with results!
