

# PHOTO SPIRIT

## Photo-To-Poster Effect For Adobe Photoshop

**WATCH THE DEMO VIDEO**

1. Open "Photo To Poster" PSD file in Photoshop.
2. Double-click to open layer "INSERT PHOTO".
3. Place the photo, rasterize and close it with save.
4. Select a paper texture from the layer group.
5. Adjust the effect of the "Filter Gallery" layer of the "Poster" layer.
6. You can turn off the white stroke.
7. Adjust the halftone radius in the effect of the "Halftone" layer.
8. You can also add talk bubbles and text to your design from the respective layers.
9. You can add scratches from the group of layers "Scratches".
