

How To Install Lightroom Presets

Once the purchase is complete you will find a zip folder in your downloads folder.

- * Locate this file and unzip it

- * Copy the Presets

- * Open Lightroom

- On a Mac, locate the top menu bar and navigate to Lightroom > Preferences.

- In Windows, you will navigate to Edit > Preferences.

- * From the preferences box, select the presets tab

- * Click on the button labeled "Show Lightroom Presets Folder"

- * Paste the presets into the folder

- * Restart Lightroom
