

# Lightroom Presets

.xmp files for Lightroom CC Classic 7.3 and above and  
Lightroom CC

## INSTALLATION

### Lightroom CC Classic

1. Download the presets zip file. Do not unzip.
2. Open Lightroom CC Classic and select any image
3. Select the DEVELOP tab
4. Select FILE>Import Develop Profiles and Presets
5. Choose the Zip file you downloaded and click IMPORT
6. The presets will then appear in your Lightroom Presets folder.
