

## Golden Patina Photo Effect For Adobe Photoshop

### WATCH THE DEMO VIDEO

1. For a start, open the '**Golden Patina Photo Effect.psd**' in Photoshop.
2. Select the '**Place Your Photo Over**' layer, then drag and drop the photo onto the document so that it is over this layer.
3. Select one of the paper textures from the '**Paper Textures**' layer group.
4. Optionally you can apply a group of layers '**Vintage Black And White**'.
5. In the '**Choose masks**' layer group, you can select one or more masks, as well as use brushes by drawing something on the '**Brush on this layer**'.
6. You can also choose one of the three '**Gold Textures**' and add patina to taste.
7. In order to use a vertical image flip the document 90 degrees.
