## How to download flexiPIM DAM Print Solution extension in Adobe marketplace?

**Step 1:** Launch your Adobe InDesign product

**Step 2:** Click the **Help** menu and choose the **Sign-In** option

**Step 3:** Enter your adobe credentials

**Step 4:** Click the **window** menu and choose **find extensions on exchange** option and it redirects to (<https://exchange.adobe.com/creativecloud.indesign.html#product>)

**Step 5:** Search tags like Asset Management, Printing, Publishing, Templates, flexiPIM, DAM

**Step 6:** Search results display flexiPIM DAM Print Solution Extension

**Step 7:** Click flexiPIM DAM Print Solution text in card view and It redirects to the description page

**Step 8:** Click on the **buy button** to purchase

**Step 9:** Complete your order

**Step 10:** After purchasing, it redirects to the extension download page

**Step 11:** Make Sure you have the Creative Cloud Desktop App installed, version 4.6 or later.

**Step 12:** Click on the Download/Install another way link, and it redirects to the installation instructions page

**Step 13:** Click Download flexiPIM DAM Print Solution button

## How to Install Extension Manager?

If you are unable to install your extension using the Creative Cloud desktop app, use an alternative application.

**Note:** Do not use Adobe Extension Manager for CC2015 or later compatible Adobe apps. It is no longer supported and may create install issues. Use a third-party utility for extension installation, such as those mentioned above for installation, if installation via the Creative Cloud desktop app is not successful.

**Step 1:** Go to <https://install.anastasiy.com/> website

**Step 2:** Click on the **free download** button

**Step 3:** Anastasiy's Extension Manager available for two platforms Windows and Mac. Click on the download button as per your system requirements or platform

**Step 4:** Extract the zip file (ExtensionManager.zip)

**Step 5:** Double Click on the extension manager file to install

## How to install flexiPIM DAM Print Solution extension?

**Step 1:** Installed Adobe products will appear on the left side

**Step 2:** Click on the **install** button on the top of the application

**Step 3:** Browse **flexiPIM DAM Print Solution.zxp** file and double click to install

### **Launch flexiPIM DAM Print Solution Extension:**

**Step 1:** Go to Adobe InDesign Product

**Step 2:** Click **window** menu on the top of the application

**Step 3:** It appears dropdown and click on the **Extensions** menu

**Step 4:** It shows flexiPIM Print Solution extension and click on it

**Step 5:** On the right side, the Indesign extension will appear.

### **How to login flexiIndesign?**

**Step 1:** Enter your domain name and user credentials to log in

**Step 2:** After login success, a list of the folder will be visible, which you have created in flexiPIM assets folder directory

**Step 3:** Click on the folder icon to view your assets that you have uploaded in flexiPIM assets directory

**Step 4:** List of assets will appear on the grid view

## How to search assets and folder directory?

**Step 1:** On top of the header right corner, search input is there.

**Step 2:** In search input, two options are available, they are Folder File.

**Step 3:** If you click the folder option - in search input, you can search a keyword for folder name results.
