

Panels for Adobe Photoshop Installation Guide

Contents:

- 1. Installation in Creative Cloud Desktop App
- 2. Where to find and how to fix the Panel in Adobe Photoshop

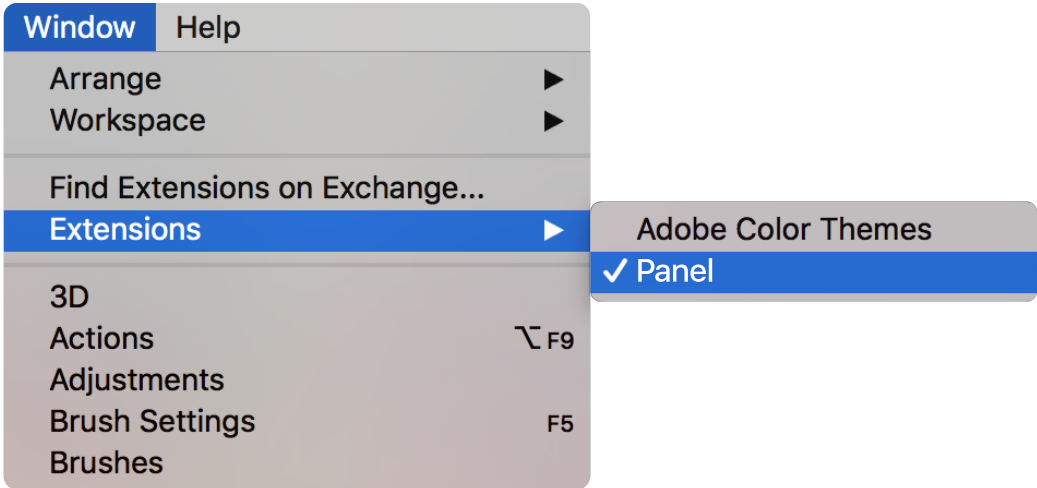

1. Installation in Creative Cloud Desktop App

- 1. After the product is purchased (or added if it is Free), launch the Creative Cloud Desktop App and sign in with your account
- 2. Enable synchronization of files
- 3. Click the 'Install' button
- 4. Restart your Adobe Photoshop after installation
- 5. If it did not work out, relaunch your Mac
- 6. When the Panel is installed, you can use step 2 of this Tutorial to find it in Adobe Photoshop

2. Where to find and how to fix the Panel in Adobe Photoshop

Open:

Window → Extensions → Panel
