

Retouch Panels for Adobe Photoshop Usage Guide

1. Make sure you are using English-language Photoshop. There may be errors in Photoshop using other languages.

2. How to add English to your Photoshop is described here:

<https://helpx.adobe.com/creative-cloud/help/change-install-language.html>

3. Before applying any function, select the layer to which you want to apply the function.

4. Unlock the layer before applying the function.

5. Check out this instructions:

<https://freeretouch.com/tutorial>

So that we could better understand the issue and assist you as soon as possible, in a letter, please indicate the following information:

1. Operating system (Windows or macOS)

2. The version and language of Adobe Photoshop

3. The description of the problem (it is advisable to attach a screenshot)

4. Do you want us to help you by accessing your computer remotely?

* For us to solve your problem quicker you can install Team Viewer or AnyDesk and mail us your ID and password to connect

We will contact you at the earliest opportunity
